CARE Infrastructure

Thinkers and leaders are not created in the class room. Every part of CARE's 50 acre campus is designed to encourage collaboration and innovation, and to ensure students have access to the best facilities.

CARE's campus was designed by a renowned Architect Ar. Sanjay Mohe, Bangalore who is known for his keen eye for Aesthetics and functional appeal. The campus building is situated next to 200 acres of beautiful lake.

The entire campus is built to be green, with an abundance of natural light and ventilation. We believe that open spaces create open minds, thus leading to creative thinking and innovation

CARE Facilities

- Fully equipped & A/c Library •
- Wifi Enabled Campus •
- Students Lounge •
- Hostel •
- Cafeteria •
- Sports •
- Transports •

About the College

Our vision is to transform the life of people in this region. The campus has a renowned School of Architecture and a Premier Business School, bringing with them Abundant Resources, Industry Connects, Subject Experts, Practitioners, Entrepreneurs, Trainers and Consultants to offer a unique experience in Arts and Science stream in line with global standards.

Today's Industrial Revolution 4.0 demands a tremendous change in the skill set of the future workforce. It demands more number of graduates with technical aptitude, leadership skills, cross culture talents and most importantly practical hands on skills in their respective domain. The CARE's Experiential Learning best meet the above industry expectation and helps the students to step up the game of today's business world.

Why CARE?

- 100% Assured Placements •
- Highly Qualified Professors •
- Industry Leaders as Advisors •
- Career Oriented Certification •
- Collaborative studios with Architecture Department •
- Summer & Winter Workshops •
- Exchange Programmes •
- Well Designed Interactive Spaces •

CEO's Message

In your life, everyone has an opinion about what you should do and what you should become. Let me quote Steve Jobs here

"You've got to find what you like. Your work is going to fill a large part of your life, and the only way to be truly satisfied is to do what you believe is great work. And the only way to do great work is to like what you do"

Listen to your inner voice, choose a career you want to pursue, and do not let others' voices drown your own. Then choose a Course that will help you achieve your dream. Wishing you great luck when you take this first step in achieving your dream

Principal's Message

Dynamic changes in today's business world requires multi skilled workforce. Keeping this in mind, CARE College of Arts and Science focuses more on employability skills in addition to the course content

We have identified five priorities skills to be imparted to the students; Interdisciplinary, Multicultural Competency, Critical Thinking, Emotional Intelligence and Technology Aptitude where every students of CARE could do their best to build a better future, fostering innovation and being leaders of tomorrow

All the best!

B.Sc Interior Design

It is the Art and Science of designing a space for optimum utility and aesthetics. A high demand program as it is applicable in every discipline where there is a need to provide a comfortable living, business and professional environment

The CARE Design Cell and School of Architecture has abundant industry connects and professional resource networks to ensure that the students learn and practice design critiques, model making, presentations and team projects are opportunities for a student to improve their skills and learn from industry experts and faculty.

This is a golden opportunity to kick-start your career in Design. Our learning practices will help you to stay at forefront in the arena of design world.
